Forecast for Sunday 26 Jun 2022

Weather: A rather cloudy day with showers and longer periods of rain occurring throughout, heavy at times. The low risk of an isolated shower also being thundery.

Chance of cloud-free hill tops above 800m: 60% for most of the day, dropping to 40% in the evening.

Low Cloud and visibility: Widespread cloud predominantly around 800-900m but occasionally lowering to 400-500m, increasingly so through the evening, shrouding the higher routes. Visibility also frequently dropping to poor at lower levels as a result of the rain and showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Winds will be strong all day, with gales over the summits. Be sure to wear appropriate footwear with good grip in addition to waterproofs.

Forecast for Monday 27 Jun 2022

Weather: Damp and cloudy to begin the day with showers, potentially heavy and merging to form longer spells of rain. Showers easing from mid-morning and then turning largely dry for the afternoon with sunny spells. Staying dry into the evening, though with some higher-based cloud perhaps beginning to arrive.

Maximum wind: 20mph southwesterly winds on the hills.

Chance of cloud-free hill tops above 800m: 30% to begin, rising to 90% from late morning onwards.

Low Cloud and visibility: Cloud covering slopes above 400m through the first half of the morning with poor visibility also as a result of the passing showers. Cloud then rising to above the summits for late morning onwards and visibility improving to allow very good views of distant hills.

Temperature: **Valleys:** Plus 10 Celsius, rising to plus 18 Celsius.
At 800m: Plus 4 Celsius, rising to plus 6 Celsius.
Freezing level: Above the summits.
